

## **Carly Coull - Chair of Governors**

**Carly has been a governor for several years and has a child in Year 6. She works for the NHS within a community setting and believes that this, together with her experiences as a parent to two children has given her the knowledge and passion to help create a fantastic governing body. Carly added "I believe that our school provides a happy, safe and exciting learning environment, enabling the children to reach their true potential. The children are exceptionally well behaved and have impeccable manners. Our school encourages parental involvement which governors feel is extremely important."**
